***Programme**

Livestock Development: Cattle breed enhancement, scientific cattle management, fodder development and goat development.

Holistic Village Development: Comprehensive model for village development with focus on productivity enhancement, sustainable livelihoods development, improved village and domestic level access to water, health and sanitation conditions, women empowerment and socio-economic development of communities.

Improved Agriculture: Transfer of improved agricultural technologies, practices and climate resilient farming systems.

Natural Resource Management (NRM): Soil and water conservation and management, biodiversity conservation, pasture land development and increase in green cover.

Skills Development: Enhancing knowledge and skills for improving the efficiency.

Renewable Energy: Non-conventional and eco-friendly, green energy.
