

## Samruddha Gram (Holistic Village Development)

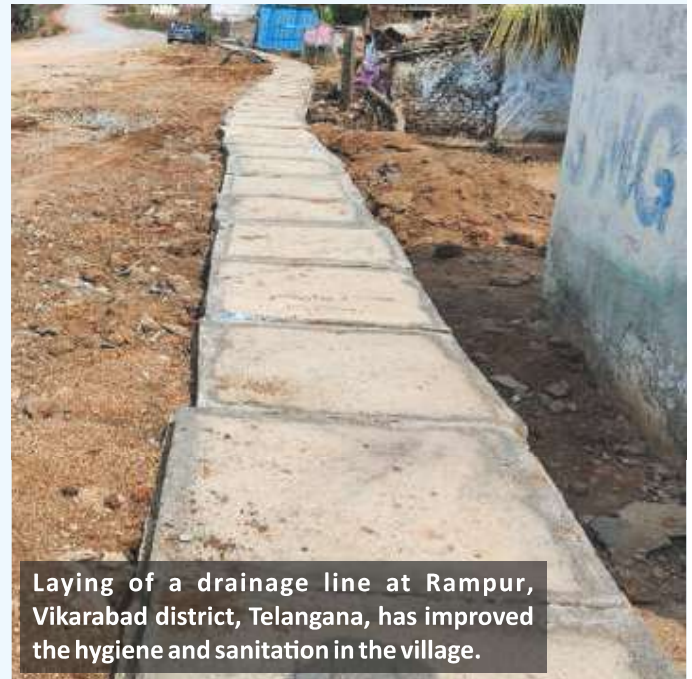

**Approach:** ■ Convergence of on-going mainstream programmes for holistic development ■ Livelihood opportunity ■ Household and Community prosperity

**Outreach:** 4104 families during the year (8074 cumulative since 2020 - starting year) from 52 villages during the year (cum. 82 since 2020) in Maharashtra, Gujarat, Madhya Pradesh, Karnataka, Andhra Pradesh and Telangana

**Programmes:** ■ Community development initiatives ■ Convergence ■ Cattle and small ruminants production ■ Animal health camps ■ Natural resource management ■ Skill-based livelihood ■ Improved agriculture ■ Water lifting and harvesting through pond lining ■ Infrastructure development ■ Climate smart agriculture ■ Women development and health.

**Methodology:** ■ Assessment of local problems and opportunities ■ Use of resources available with households ■ Adoption of relevant technologies ■ Family-based interest ■ Identification of women and men from homogeneous socio-economic categories ■ Group formation ■ Training and Capacity building.

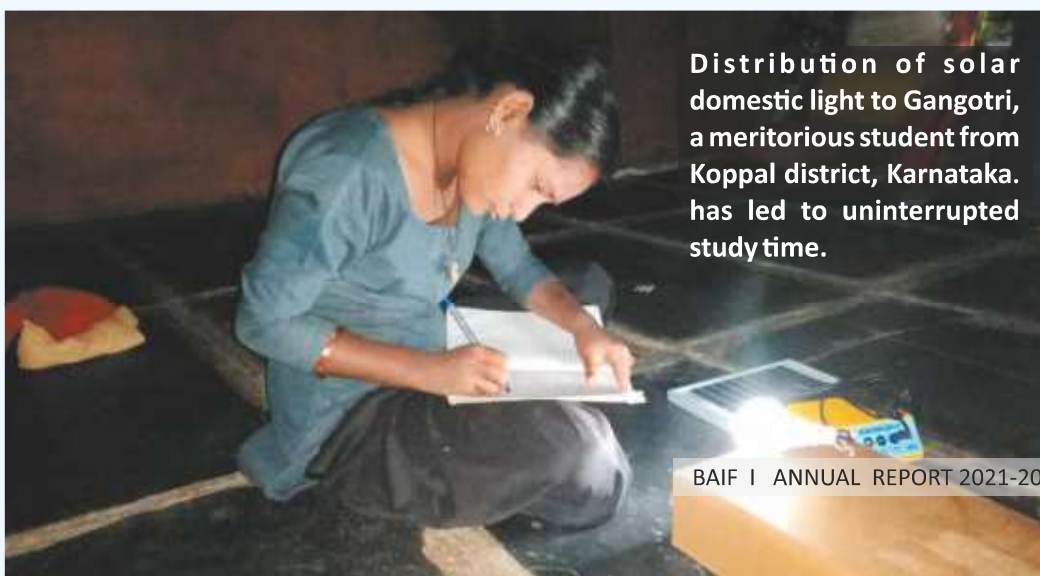

**Outcome:** ■ People's initiatives ■ Improved income and quality of life.

Laying of a drainage line at Rampur, Vikarabad district, Telangana, has improved the hygiene and sanitation in the village.

Installation of solar-powered street lights in the market place at Taralakatte village in Koppal district, Karnataka.

Distribution of solar domestic light to Gangotri, a meritorious student from Koppal district, Karnataka, has led to uninterrupted study time.
