Climate Actions for Sustainable Livelihood Development of Rural India

Programmes and Impact

Livestock-based Livelihoods and Enteric Methane Emission Reduction

33,95,933 (cum. 77,30,028) families from 99,452 villages in 13 states have improved their livelihood; Methane emission reduced by 17 to 20 %

Livestock Development for sustainable livelihood

Water-centric Livelihoods and Land Degradation Neutrality

14,592 (cum. 386,701) ha; 19,478 (cum. 303,938) families in 381 (cum. 1894) villages in 14 states; Estimated carbon sequestered / offset: 14,592 tCO2e during the year 2023-24 (cum. 386,701 tCO2e)

Land Restoration through conservation of soil and water

Agri-Horti-Forestry (Wadi) for Carbon Sequestration and Livelihoods of small and marginal farmers

4239 (cum. 93,375) ha; 10,598 (cum. 233,438) tribal and poor families; 472 (cum. 7381) villages from 13 states; Carbon sequestered: 2.1 million tons

Tree - based farming systems

Agrobiodiversity Conservation

4000 tribal farmers from Maharashtra, Gujarat and Odisha engaged in conservation, seed production and upscaling of worthy landraces through seed saver groups

Food Security

Renewable Energy

Estimated emission reduction by more than 2030 IRESA units is 8124 t. CO2 e. per year; Emission reduction potential of fractional solar pumps:11.25 kg CO2 e. / day / hp.

Solar and Bioenergy

Disaster Relief and Rehabilitation

Disaster Management is a very important programme of BAIF. BAIF has instituted a Disaster Management Fund to provide immediate relief measures to families affected by various natural calamities in its operational areas across the country.

Relief support: extreme events

To know more about BAIF work, please scan

Samruddha Gram

Convergence of mainstream programmes for holistic development of 13,047 families (cum. 25,512 since 2020) from 89 villages of 10 states

Climate Smart Village Development

Climate Change Adaptation, Mitigation and Climate-Smart Agriculture

20,176 vulnerable household; 135 villages in 5 States; Climate-Resilient and Smart Agriculture; Climate proofing interventions

Climate Smart Agriculture
